

San Mateo, CA., (11/19/2001) — Akuter, Inc. (F.K.A. iTraining Services Inc.), a leading provider of enterprise knowledge empowerment software, announced today that Harland Financial Solutions, a division of John H. Harland Company (NYSE: JH), has selected AKUTER™ Enterprise as their knowledge platform. Harland Financial Solutions will use the AKUTER software systems to develop and publish their curriculums on product training for their customers and employees.

With over 6,000 financial institution customers, Harland Financial Solutions is a leading provider of innovative solutions for real-time data processing. Didier Bourgeot, Akuter, Inc. CEO, said "We are very pleased with Harland Financial Solutions' decision to use AKUTER Enterprise and we look forward to partner with them towards a successful deployment of their eLearning strategy", he also added that "Harland Financial Solutions' choice of AKUTER technology confirms the unique benefits offered by our approach and model of the knowledge management market."

AKUTER Enterprise will empower Harland Financial Solutions to develop their learning objects through the AKUTER Author and publish it through the AKUTER Enterprise to their customers. Steven Meadows, Harland Financial Solutions Director of Services, said, "this new software will allow us to easily develop and publish our product training coursework as well as easily make changes to curriculums as classes evolve. Akuter's enterprise approach will enable us to push this information out to a broader audience." AKUTER rapid development and deployment feature will provide a competitive advantage to Harland Financial Solutions by quickly developing, updating and publishing their training material to the extended enterprise.

About Akuter, Inc.

Akuter, Inc., <http://www.akuter.com/>, is an enterprise software company that brings an absolutely new approach to the worldwide knowledge management market.
