

San Mateo, CA December 23 2004 — **Akuter, Inc.**, developer of a unique Enterprise Knowledge Management System for regulation driven organizations, announced today that **Enterprise Protection Associates**, a consulting and training company in the field of Risk Management has selected **Akuter Enterprise** to address their customers' needs for compliance and certification on line.

Enterprise Protection Associates (EPA) operates in the Security industry providing Risk Management, System Engineering and IT Solutions services. **Didier Bourgeot**, Akuter's CEO, said "We are proud to partner with Enterprise Protection Associates, which has strong hands on experience in the fields of Risk Management and Enterprise Asset Protection. Our partnership underlines Akuter's commitment to customer support and to providing the best possible solutions to address their learning and compliance needs. Our partnership with EPA is another professional endorsement of Akuter Enterprise, our innovative learning solution for fast business response".

Akuter Enterprise will empower EPA's customers to develop their learning programs with Akuter Author and publish them from the Akuter Management System platform. **Stuart Bourhill**, EPA's President, said: "eLearning is the key to putting policies, procedures, and regulations into action. People are the first and most important line of defense, both in terms of physical and IT security. Akuter's solutions will provide EPA with the ability to provide flexible, specific, and easy-to-use web-based training for our valued clients in the transportation, health, utility, and government sectors. Akuter's rapid development and deployment feature gives a competitive advantage to EPA's customers by allowing them to quickly develop, update and publish their learning and compliance materials to their extended enterprise as well as providing proof of compliance and certification."

About Akuter

Based in San Mateo, CA and Vancouver, BC, Akuter offers eLearning solutions for compliance and certification that is ideal for staff orientation, training, health and safety and certification.

Akuter Enterprise is a software ready to use that includes a development module based on MSWord and a Server application to organise your courses, curricula and assignments. A curriculum can have prerequisites and exams. Assignments can be made on an individual basis or to groups. Each learner has a login information to access their personal portal where they can take their assignments. All learners' activities are tracked and can be reported through a set of reports. In addition, the product provides alerts and messaging services that let you know of users' progress. It is very easy to use yet very powerful and sophisticated.
